

# FRITSCH

## SMOOTH IRON / FORGED IRON

Smooth Iron is hand machined from solid steel with a waxed surface.

Forged Iron is hand-forged from solid steel using Old World forging techniques. All rods are individually forged by hand, giving each a character and quality unique to the hands of the respective blacksmith.

Forged Iron and Smooth Iron drapery hardware are standard with a brushed and waxed iron surface. Both are also available in the following artisanal hand-applied finish options: **Bronze, Copper, Gold, Olive Bronze, Silver, Edelrost, and Schwarz Gilt Patinas.** Brass and nickel finials available in polished or matte finishes.

## STAINLESS STEEL

Stainless Steel is constructed of machined stainless steel and is standard with a brushed finish. Also available in the following finish options: **Polished, Anthracite, Coffee Brown, Satin, Sienna Brown, Pinot, Absinth, Chablis** or custom colors finished to match any Pantone color.
